Education

Koneru Lakshmaiah Education Foundation

Bachelor in Computer Science and Engineering CGPA-8.91/10

May 2020 – May 2024

Vijayawada, Andhara Pradesh

Aaryan International School

Science, 12th

March 2018 – March 2019

Uttam Nagar, New Delhi

Aaryan International School

10th

March 2016 – March 2017

Uttam Nagar, New Delhi

Experience

Future Ready Talent

June 2022 – August 2022

Web Developer Intern

- A responsive website with animations, interactive elements, user engagement, HTML, CSS, and JavaScript was developed.
- included elements of scalable design to facilitate future feature and content extensions.
- Git was used to implement version control, facilitating effective team collaboration and preserving an orderly code base.
- improved customer experience by **90%** through faster load speeds on websites

KL University

May 2021 – January 2024

Mentor

- coached and guided a group of junior developers in professional growth and best practices..
- had frequent one-on-one meetings with mentees, which increased project completion rates by **80%**.
- concentrating on their unique objectives and difficulties and offering tailored advice.

Projects

PDF MERGER | React,HTML,CSS,JavaScript,Bootstrap

- The goal of the PDF Merger project is to improve file efficiency and organization by merging several PDF files into a single, cohesive PDF document.
- The PDF Merger project simplifies the process of consolidating multiple PDF documents into one cohesive file, offering efficiency and convenience for users..
- To ensure a seamless user experience during the merging process, strong error handling techniques were implemented.

Library Management System | Java, Maven, MySQL, Servlet, HTML, CSS, SQL Server

- The Lms System project is a comprehensive software solution aimed at automating and enhancing library operations. .
- Developed an intuitive and user-friendly interface for the Library Management System, simplifying tasks for librarians and patrons alike.
- Designed and integrated a customized reporting module, allowing administrators to generate insightful reports on library usage, popular genres, and inventory status

Entertainment Hub | React,JavaScript,HTML,CSS,API

- Directed a team in creating a multifaceted entertainment application encompassing movies, TV shows, music.
- Ensured seamless user experiences across iOS, Android, and web platforms, focusing on responsive design and functionality,etc.
- Optimized the application's performance, focusing on fast loading times, smooth streaming, and minimal buffering, providing users with a seamless entertainment experience.

Technical Skills

C/C++,OOPs,HTML5,CSS,Bootstrap,Tailwind,JavaScript,Java,React.js,DOMmanipulation,GitHub,JIRA,MySQL,PostgreSQL, MongoDB,RESTfulAPIs,SDLC,Agile,Postman,Node,Express,Data structure,MySql Server,Windows and Linux operating systems,Testing,architecture/design,UI/UX,TCP/IP,TypeScript,Azure,PYTHON,NumPy, SciPy,TensorFlow,EC2, Aurora, S3, and DynamoDB,Auth0,Kubernetes,Docker.

Global Certifications

AWS Cloud Practitioner Certified: Verify AZURE AZ-900: Verify Oracle Infrastructure Verify

Achievements

- Achieved Gold Level in Problem Solving and C++ on HackerRank, placing in the top **5%** globally; also recognized as a top performer on TechGig for outstanding coding skills and algorithm efficiency
